

## Something to believe in

Til the moment I found you  
I thought I knew what love was  
Now I'm learning what is true  
That love will do what it does  
The world finds ways to sting you  
And then one day  
Decides to bring you

Something to believe in  
For even a night  
One night may be forever  
But that's alright  
That's alright  
And if you're gone tomorrow  
What was ours still will be  
I have something to believe in  
Now that I know you believed in me

We were never meant to meet  
And then we meet  
Who knows why?  
One more stranger on the street  
Just someone sweet passing by  
An angel come to save me

Who didn't even know she gave me

Something to believe in

For even a day

One day may be forever

But that's ok

That's ok

And if I'm gone tomorrow

What was ours still will be

I have something to believe in

Now that I know you believed in me

I have something to believe in

Now that I know you believed in me

And if I'm gone tomorrow

What was ours still will be

I have something to believe in

Now that I know you believed in me

I have something to believe in

Now that I know you believe in me
